

SUPPORT OUR COMMUNITY'S CHILDREN

Volunteer to tutor Math and Reading
to elementary & high school students

We cannot allow Newark's inferior school system to defeat our children's hopes and aspirations. With the decrepit conditions of inner city schools and substandard instruction, our youth are destined to failure. The dropout rate is soaring while those who do graduate often leave with a 5th or 6th grade reading level.

Only an organized and unified community can increase the quality of education, insure a more democratically representative and accountable School Board, and work for the interests of Newark's future.

Join our tutorial program as part of the overall struggle of PEOPLE UNITED FOR BETTER SCHOOLS!
